

5. FIELD EMERGENCY TAG REPORTING PROCEDURES

Lesson Topic : Field Emergency Tag Reporting Procedures

Instructional Materials:

Instructional References:

Instructional Aids:

1. Visual Aid Panel
2. Form DD 1380 - U.S. Field Medical Card

Terminal Objective :

1. The student will know the use of a DD 1380.

Enabling Objective:

1. The student will be informed on the proper use, completion, and use of copies of the DD 1380.

I. CONTENTS OF THE DD 1380 BOOK

- A. Hard card - carried on the patient.
- B. Blank piece of paper - used for ordering supplies, messages.
- C. Carbon paper.
- D. White card - kept in the book with you

II. TO FILL OUT THE CARD

- A. First pull the blank piece out. When you fill out the hard card it will make a copy on the white one.
- B. Fill out all the applicable spaces. Enter all information concerning the patient.
- C. After completion, attach hard card to the patient (around wrist, on button, etc.). Place it so it can be easily seen.

III. REVIEW

A. This card has the only information available to those in the rear who will care for the patient. It is imperative that all information be correct and complete.

B. The instructor shall ask the students if they have any questions. Questions should also be allowed during the lecture to clarify any misunderstandings.

C. If the students do not have any questions, then the instructor shall ask students questions to ensure the lesson was understood.
